

Massivit 10000 Pioneering Partner Program

Dear Valued Partner,

Massivit 3D is pleased to invite you to join the **Massivit 10000 Pioneer Partner Program (PPP)**, A comprehensive business program aligned with the launch and global distribution of the “Massivit 10000” tool builder to the Composites market.

The Program

The program has been built to allow Composites industry innovators to gain priority access to this new technology with a comprehensive set of additional benefits.

From its inception, the “Massivit 10000” has gained substantial interest in the Composite Materials market by addressing the well-known bottleneck associated with mold production. Based on Massivit 3D’s patented Cast-In-Motion technology, the “Massivit 10000” is designed to shorten mold production time by up to 80%, allowing our partners to gain a competitive advantage.

Massivit has experienced snowballing demand for this novel technology, predominantly from industry veterans keen to lead this latest technological milestone in composites manufacturing. In light of the growing demand, and the company’s plan to offer a controlled launch with a limited number of systems delivered each quarter, we have introduced the **Massivit 3D Pioneer Partner Program**.

Joining the Pioneer Partner Program

To join the program and secure a delivery position for your Massivit 10000, simply remit a signed registration form and deposit within 30 days from the date listed below.

Reservations will be accepted by Massivit based on agreed performance and delivery expectations with each customer. Massivit will communicate regularly with reservation holders and Reservation fees shall be fully refundable in the event that agreed expectations are not maintained.

Reservation fees will be deducted from the final purchase price of your Massivit 10000.

As a Pioneer Partner you can purchase your "Massivit 10000" under special commercial terms.

Massivit 10000 Pioneering Partner Program Benefits		
	Gold	Platinum
Deposit Amount	\$10,000 Refundable	\$25,000 Refundable
Available Positions (global)	10	5
Priority	After Platinum Members H2 2022	First Units after completion of Beta* Q2 2022
Free Sales sample	Yes	Yes
Complete Benchmark mold built to your design	Yes	Yes
Complimentary Applications Support Package	3 months	6 months
"All You Can Print" No Charge Consumables	1 months	3 months
Discount on System Purchase	10%	15%
Discount on Consumables	10% for 1 year after free consumable period ends	20% for 1 year after free consumable period ends

* Beta ends during - Q1 /22

The Pioneer Partner Program is structured in stages leading to a final purchase of your Massivit 10000.

Business Program Outline		
1	Sign-up for Program Submit your reservation conditional Purchase Order	Choose your level of participation, sign the non-binding purchase order, and agree on the principle commercial terms of the purchase of your Massivit 10000.
2	Business ROI Evaluation (Base on Customer File)	A business analysis will be completed to demonstrate the clear value of the relationship including a private virtual demonstration conducted by Massivit headquarters applications and project teams. Where appropriate we will visit your facility as well.
3	Delivery and review of a Sample Mold Tool	A 3D printed sample will be delivered to you for your impression and evaluation of the process output.
4	Visit to HQ in Israel	Visit to Massivit HQ in Israel to meet with the teams, discuss next steps and witness live the Massivit 10000 product and process.
5	Benchmark Mold for your production	Your own geometry, articulated in a CAD file, will be printed, and delivered to you for evaluation.
6	Sign purchase Agreement	Finalize the purchase agreement, including ensuring the financial arrangements, finalizing any remaining issues and details, and eventually signing the purchase agreement.
7	Site Prep Guidelines	Any Required Site Modifications
8	Installation	Operational Massivit 10000 Solution

Reservation – Massivit 10000 Tool Builder Printer

Date:	December 7, 2021
Company name:	TMI Products 1493 E. Bentley Drive Corona CA 92879

Dear Bill,

Thank you for your interest in our products. We are pleased to offer you a 3D-printing system for the building of Composite materials molds directly from digital data. Following you will find our quotation and our general terms and conditions.

We would be happy to discuss the quotation in more detail. Execution of this document reserves a Massivit 10000 for delivery in 2022 should you choose to purchase. For further questions, please feel free to contact me.

Kind regards,
Michael Clark
Composite Sales Manager – North America

Price Proposal

Item	Description	Qty	Unit Price	Total
1	Massivit 10000 Tool Builder 3D Printer	1	\$ 660,000	\$ 660,000
2	Massivit CMS Assembly: Material Supply System	1	\$ 99,000	\$ 99,000
3	12 Month Manufacturer Warranty	1	Included	Included
4	Training & Installation	1	\$ 12,000	\$ 12,000
5	Massivit Smart (Slicer software / a pre-press) *	1	\$ 5,000	\$ 5,000
			Sub Total	\$ 776,000

Payment Terms

Deposited	1000\$/10,000\$/25,000\$ USD	
90% Pre-Shipment Payment		\$698,400
Balance After Installation		

General Terms:

1. This document is non-binding and reserves a Massivit 10000 for delivery in 2022 based on prioritization at the time of a fully executed and binding order.
2. All prices do not include any applicable tax or VAT.
3. Shipping Terms: Ex-Works – Israel.
4. No CAD or 3D modelling software is supplied with the machine.
5. Manufacturers' warranty covers all parts and labor, excluding print heads
6. No additional equipment or devices are supplied other than items specifically listed in this quote.

Shipping:

7. Shipping costs will be provided prior to shipment.

Benchmark Parts:

8. The signee of this document when fully executed, and conditional to the reservation fee deposit, is eligible for 1 Free Of Charge (FOC) Massivit 10000 benchmark.
9. Delivery time: Late Q4 2022 and based on future coordination.

Printer Specifications

Print configuration	CIM technology: 1 printing-head and 1 casting-head
	Thermally controlled print chamber, up to 60°C. Removable & interchangeable print tray. Mold print single layer height: 0.5mm to 1.3 mm.
Print volume	W x L x H: 1.20 x 1.50 x 1.65m / 4'0" x 5'0" x 5'4"
Extra Printing Tray	Optional (~5000 USD)
Maximum Object Weight	Max. object weight 300kg /660 lbs
Motion System	Linear motors for X/Y print head Servo motors for print tray (Z) height
Printing material	Massivit Breakable Gel + Casting Material
Workflow and software	Software on machine: Massivit proprietary front-end software. Input format: STL Massivit Smart Slicer SolidWorks (Not included)
System Dimensions	W x L x H: 3.1 x 2.2 x 2.8 meters / 10'2" x 7'3" x 9'2"
CMS Dimensions	W x L x H: 1.8 x 1.8 x 1.5 meters / 5'11" x 5'11" x 4'11"
System weight	Unpacked ~2500kg / 5511 lbs. Packed ~3000kg / 6613 lbs. CMS estimated with 600KG / 1300LBS

* Computer not included
